

Sustainable design and assets

A collection of BRE expert guidance on delivering
a sustainable built environment

Introduction

Welcome to the BRE Expert Collections.

IHS BRE Press is the exclusive publisher of BRE publications. Publications are produced in various series, which are outlined below. Information on how to purchase BRE publications is given on the next page, together with information about BRE and IHS.

This pdf contains a valuable collection of short BRE publications on delivering a sustainable built environment. It is one of a series of compilations of BRE background documents and current guidance and advice on the built environment, each offering exceptional value for construction professionals.

Adobe Acrobat Reader X or later for Windows or Macintosh is required to run this pdf. The pdf can be searched using the bookmarks panel and the links from the emboldened text on the Contents pages.

BRE publication types

Digests are authoritative summaries of the state-of-the-art on specific topics in construction design and technology. They draw on BRE expertise and provide essential support for all involved in design, specification, construction and maintenance.

Information Papers summarise recent innovation and research findings, and give advice on how to apply this information in practice.

Good Building Guides give concise guidance on the principles and practicalities of achieving good-quality building. These highly illustrated practical guides draw on BRE experience and research, and other sources, to provide clear technical advice and solutions.

Good Repair Guides are an extensively illustrated series, providing practical information on the identification, diagnosis and repair of defects. Good Repair Guides look at what went wrong, explain why, and give practical advice on how to put it right.

Books, reports and manuals present research, innovation, best practice and case studies in more detail.

BRE Connect Online is an online subscription to **all** BRE publications. Information about BRE Connect Online is included [HERE](#).

Buying BRE publications

Online: www.brebookshop.com to order hard copy and pdf publications

Tel: +44 (0) 1344 328038, Email: brepres@ihs.com

Mail: IHS BRE Press, The Capitol Building, Oldbury, Bracknell, Berkshire RG12 8FZ, UK

About BRE

BRE Group (BRE) is a world-leading centre of built environment expertise, research and training, and includes a third-party approvals organisation offering certification of products and services to international markets.

BRE is owned by BRE Trust, the largest UK charity dedicated specifically to research and education in the built environment. BRE Trust uses the profits made by BRE to fund new research and education programmes that advance knowledge, innovation and communication for public benefit.

Information about BRE can be found [HERE](#).

About IHS

IHS (NYSE: IHS) is the leading source of information, insight and analytics in critical areas that shape today's business landscape. Businesses and governments in more than 165 countries around the globe rely on the comprehensive content, expert independent analysis and flexible delivery methods of IHS to make high-impact decisions and develop strategies with speed and confidence. IHS is the exclusive publisher of BRE publications.

IHS Global Ltd is a private limited company registered in England and Wales (no. 00788737).

Registered office: The Capitol Building, Oldbury, Bracknell, Berkshire RG12 8FZ. www.ihsmarket.com

Contents

Delivering sustainability objectives through planning	IP 3/08
Reducing the effects of climate change by roof design	DG 486
Assessing the sustainability of office refurbishment with BREEAM: a case study	IP 19/11
Sustainable refurbishment of the BRE Victorian Terrace:	
Part 1: Design philosophy	IP 12/11-1
Part 2: The construction process	IP 12/11-2
Part 3: Lessons learned	IP 12/11-3
Building information modelling life cycle assessment: an introduction to IMPACT	IP 5/15
Delivering sustainable development in the built environment	IP 4/09
LIST (Low Impact Shopfitting Tool) for designing greener shopfitting display equipment	IP 1/11
Reducing the embodied impacts of shopfitting equipment	IP 4/15
Building with confidence using renewable materials	IP 13/13
An introduction to low-impact building materials:	
Hemp lime	IP 14/11
Straw bale	IP 15/11
Unfired clay masonry	IP 16/11
Cross-laminated timber	IP 17/11
Natural fibre insulation	IP 18/11
