

Approved software for ECO 2 assessments

List of ECO assessment programs using RdSAP 9.92 tested and approved by BRE* for use in connection with calculating ECO 2 scores for existing dwellings in England, Wales and Scotland, for measures installed on or after 1 April 2015.

Software versions marked with * can be used now but savings for measure LI_ceiling_level_topup_100 cannot be reported before 01 October 2015.

If handheld devices are used for collecting or transferring data or data is transferred to databases, software developers are responsible for ensuring correct transfer of data. See notes on last page.

NOTES

1. "x" in the version number may be incremented for minor updates that do not affect the calculated ECO scores.
The software approval applies to any "x".
2. The list of programs is complete as at the date at the top of the page. Additional programs may be added.
3. Versions of software marked with * include the "LI_ceiling_level_topup_100" measure.

* The ECO programs listed have been checked by BRE. Whilst BRE has taken due care and precaution in testing the programs, it will not be held liable for any failure or consequence thereof that may occur in their use or application.
