

# Environmental Policy Statement

**Our vision is a working life with minimal negative impacts and maximum positive environmental, social and economic impacts. We shall ensure our operations and activities are managed in an energy and resource efficient manner. Our S Plan reflects our commitment to improving our environmental performance as well as driving sustainable practices across the BRE Group businesses. Our associated policies link together ensuring environmental and sustainable aspects are given due considerations and reduced where possible.**

## Our environmental policy is to:

- Evaluate and continually improve our environmental performance
- Manage our activities to minimise risk of pollution and contamination
- Ensure we are compliant with applicable environmental legislation and regulations
- Regularly Audit our compliance with legislation and investigate all environmental safety incidents in order to prevent recurrence
- Maintain ISO 14001 certification to help improve & measure our environmental performance
- Set targets for continuous improvement and put in place environmental safety and sustainability programmes to address our significant impacts
- Remain alert and responsive to developing external issues, knowledge and public concerns.
- Work with industry bodies, government agencies, business partners and other related bodies to promote environmental care, increase knowledge and disseminate best practice.

## To demonstrate our commitment to this policy we will:

- Ensure that employees are aware of the Company's environmental policy and motivated to apply it; are aware of their own responsibilities and given the necessary training and support.
- Publish information on our environmental performance including external reporting of BRE's key environmental performance indicators and progress against targets.

## Signed on behalf of the BRE Group Board

**Niall Trafford**  
BRE Group Chief Operating Officer
